**Implicit Content:**
- Differentiate among various types of simple machines as levers, pulleys, wheel and axle.
- Use an appropriate simple machine to complete a specified task.
- Value the usefulness of simple machines.
- Demonstrate an understanding of the use of simple machines.
- Classify simple machines as:
  - Levers,
  - Pulleys,
  - Wheel and axle.
- Select appropriate simple machines to solve everyday problems.
- Examine the use of forces including twists and turns.
- Carry out procedures showing the use of different forces.
- Record observations using scientific methods.
- Be thorough when conducting investigations.
- Be neat in completing tasks.
- Evaluate the effects of forces.

Primary School Curriculum

Science

Standard 4
Students will:

**Individuals and Groups:**

1.1.1 Examine the biological changes that take place in animals and plants during the growth process.

1.2.1 Measure lengths using instruments of varying ranges.

1.2.2 Compose a suitable aim for investigating changes in measurable physical characteristics that vary with growth.

1.2.3 Report procedures in logical sequence and appropriate language.

1.3.1 Show respect for the variations that exist among all forms of life.

1.3.2 Demonstrate self-assurance about their uniqueness.

1. Understand the changes that take place in plants and animals as they mature.

- Represent the dimensions of plants and animals using metric units.
  
  (1.1.1, 1.2.1, 1.3.1)

- Explain that as plants and some animals mature, their parts grow in size.
  - height
  - mass
  - span
  - girth
  
  (1.1.1, 1.2.1, 1.3.1)

- Differentiate between adults and their young.
  
  (1.1.1, 1.2.1, 1.3.1)

- Formulate and test hypotheses.
  
  (1.1.1, 1.2.1, 1.2.2, 1.3.2)

</tr>
<tr>
<td>3.3.1 Propose innovative recommendations.</td>
</tr>
</tbody>
</table>

- Design experiments to compare the properties of materials based on:
  - ability to transmit:
    - sound and/or light;
  - absorbency;
  - strength;
  - conduction of:
    - heat, and/or electricity.
  (3.1.1, 3.2.1)

- Use a thermometer correctly by immersing the bulb into liquid to be tested.
  (3.1.1, 3.2.1)

- Formulate and test hypotheses on the most suitable material to be used in
